

DE LA SALLE UNIVERSITY. Students of the Mechanical Engineering and Electronic and Communications Engineering Departments of De La Salle University-Manila pose with Philippine Solar Car Challenge Society, Inc. chairman Vince Perez, DLSU Chancellor Dr. Carmelita Quebengco and overall technical team leader Prof. Rene Fernandez, as they received the solar panel that will power SINAG, the First Philippine Solar-powered Car from Greg Reichow, SunPower VP for Operations. The pioneering project will produce the country's first entry to the prestigious World Solar Challenge in Australia in October.
